

MAXI-TIP

PRODUCT DATA SHEET

Product code: **MT-2**

Manufactured in 7.5' lengths for affordable shipping

MATERIAL CONSTRUCTION

UHMW-PE 92A Durometer

**We may be able to accommodate additional durometers upon request.*

WORKING TEMPERATURE

Ambient temperature -50 to 180 degrees Fahrenheit

FDA SUITABILITY

Meets FDA requirements for direct food contact under 1 or more of the following regulations:

- 21 CFR 177, 1680
- 21 CFR 177, 1520
- 21 CFR 177, 2600
- 21 CFR 177, 3297

COLOR

White

**We may be able to accommodate additional colors upon request.*

The MT-2 is manufactured from UHMW for greater rigidity and stiffness. This scraper is excellent for pulley cleaning, heavy product plowing, and general applications. The concave tip allows it to sit closer to the rollers.
